INSTANTCHARGER 100W 4 USB

Ultra-powerful USB-C and USB-A GaN PD charger

Fast charge USB-C equipped laptops

Need a quick boost of power in the middle of your big project? The ultra-powerful, high-speed InstantCharger 100W 4 USB lets you fast-charge laptops equipped with USB-C ports², including the MacBook Pro 16".

Charge your device in the blink of an eye

Power Delivery 3.0 ensures fast charging for your devices. We're talking recharged up to 50% in 30 minutes for an iPhone 12³, 40 minutes for a Samsung Galaxy S21³, or 45 minutes for a MacBook Pro 16"³. Yes, that fast.

Light and compact as a laptop power adapter

Bulky, heavy chargers be gone. Harnessing the power of GaN (gallium nitride) technology, the InstantCharger 100W 4 USB is the ultimate, lightweight power adapter. Perfect for people who don't want to be weighed down.

Four USB ports for simultaneous charging

The InstantCharger 100W 4 USB features two USB-A ports plus two USB-C ports. Now you can charge up to four devices⁴ at once—phones, tablets, laptops, speakers, headphones, gaming consoles, drones, cameras, power banks, you name it!

Smart power distribution

You want efficiency? You want optimal charging speeds? The InstantCharger 100W 4 USB delivers. It's smart enough to know how to allocate power, depending on which devices are plugged in.

Swappable travel plugs

Easily switch between US, EU, and UK power plugs for convenience while traveling. Charge your devices without worry, wherever you are in the world.

Eco materials and packaging

This is a more earth-friendly USB charger. With 90% recycled plastics and FSC-certified packaging printed with organic soy ink.

Advanced safety and reliability

The charger provides auto protection against overheating as well as overcurrent/overvoltage conditions and also provides surge protection.

Protection Pouch

Even a charger as useful as this deserves a rest, so it comes with its own protection against dust and damage when it's not in use.

Disclaimers:

1. Charging cables sold separately.
2. To deliver single USB-C port max. 100W charging, select compatible USB-C to USB-C cable that can support 100W charging output.
3. Charging times based on SGS testing using USB-C port and compatible charging cable. Actual user experience may vary depending on many factors, such as model, battery size, temperature, humidity, and condition and age of the device.
4. Charging cables sold separately. Each USB-C port supports max. 100W PD charging. Each USB-A port supports max. 15W charging. When charging four devices simultaneously, total max. output is 100W.
